The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director Division of Water Room W264 402 West Washington Street Indianapolis, Indiana 46204

For a petition to be considered valid it must:

- 1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
- 2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
- 3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
- 4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water Room W264 402 West Washington Street Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

Application # : FW-23495

Stream : St. Joseph River

Applicant : Indiana Department of Transportation

Samuel E Wolfe, P.E. L.S

**Toll Road District** 

PO Box 1, 52551 Ash Road Granger, IN 46530-0001

Description : The existing Toll Road bridges over County Road 25 and the St. Joseph River will

be rehabilitated. Portions of the piers and the entire abutments will be removed and replaced. Temporary fill (coarse aggregate and rip-rap) will be placed in the St. Joseph River to provide access to repair the piers and will be completely removed upon project completion. Rip-rap will be placed along approximately 650' of the east and west riverbanks. The rip-rap will conform to the existing bank at the project limits. Details of the project are contained in information and plans

received at the Division of Water on August 18, 2005.

Location : Indiana East-West Toll Road Bridges over County Road 25

Stream : Brandywine Creek

**Applicant** : Donna Pope

4496 East 100 North

Greenfield, IN 46140-8906

Description : A 170' x 791' area will be filled in the west floodplain of Brandywine Creek. The

fill varies in depth from 108" on the landward side to approximately 1' on the streamward side. It will be set 10' back from the top of the bank and will have 1:20 sideslopes. The finished elevation of the fill will be at 877.0', NGVD. No borrow pit and the fill material shall be obtained via excavation of basements, a pool, and New Road widening project. Approximately 100% of the shoreline will be maintained at a shallow slope to encourage the development of wetland vegetation. Details of the project are contained in information received electronically at the Division of Water on August 23, 2005 and in plans and

information received at the Division of Water on August 22, 2005.

Location : 850 East New Road

Stream : St. Joseph River

Applicant : Robert E Gaff

54729 Streeter Lane Elkhart, IN 46514-4681

Description : An existing, steel sheet piling seawall will be refaced with a new steel sheet piling

seawall along 75' of the 165' frontageof the north (right) bank of the St. Joseph River to deter bank erosion. The new wall will be approximately 4.5' high, as measured from the riverbed, will have the same alignment as the existing wall, and will tie into the existing steel seawall on the adjacent property located to the west and will radius into the bank blending into the existing glacier stone seawall on the east 90' of this same property. The piling will be driven approximately 6.5' into the riverbed and will be anchored with deadmen spaced at 12' intervals. A steel, rear facing whaler will be placed across the inside of the wall to further stabilize the structure. Clean fill will be brought onsite to backfill the area landward of the new seawall. The fill will be leveled with the top of the wall at the

river and will be tapered back to existing ground elevations within the project site. Details of the project are contained in information received electronically at the

Division of Water on August 24, 2005.

Location : Along the north (right) bank of the St. Joseph River approximately 5300'

downstream of the bridge at County Road 17 at Elkhart, Osolo Township, Elkhart County

Application # : PL-20234

Lake : Clear Lake

Applicant : Greg Spangler

512 Oakwood Avenue Bryan, OH 43506

Description : An existing glacier stone/concrete seawall will be refaced across the entire 43ft of

the 43ft frontage of the applicant on Clear Lake to prevent deterioration. The refacing will consist of the same glacier stones along with new concrete which will be tied to the existing wall with concrete. The refacing will have a maximum thickness of 36 inches and will be sloped on the lakeward side. An 8 inch wide (6

in tall) layer of existing concrete will remain at the base of the wall for toe protection. An 18 inch wide concrete walkway will be constructed on top and landward of the lakeward face of the refaced wall. Details of the project are

contained in information received electronically at the Division of Water on August

25, 2005.

Location : The project is located on the south shore of Clear Lake, approximately 1/8 mile

east of the island. It is immediately in front (north) of my Clear Lake property at

864 Lake Drive

near Fremont, Clear Lake Township, Steuben County

Statute/Rule : Lakes Preservation Act, IC 14-26-2, with the associated Public Freshwater Lake

Rule, 312 IAC 11
